

TENTH REGIMENT IS DELAYED REACHING PITTSBURG; BOYS OF COMPANY D MAY GET HOME LATE

Detrain at 2 O'clock and
Prepare to March to Sol-
diers' Memorial.

TO BE REVIEWED BY GOVERNOR

After Parade and Luncheon, Various
Companies Will be Started to Their
Home Stations; Royal Welcome is
Assured the Boys When They Come.

Special to The Courier.

PITTSBURG, Oct. 11.—The Tenth
Regiment, Pennsylvania National
Guard, one of the crack militia reg-
iments of the country, arrived in
Pittsburg from the Texas border at 2
o'clock this afternoon and detrain-
ed for the purpose of being reviewed by
Governor Brumbaugh.

Delays west of Pittsburg may pre-
vent Company D from returning to
Connellsville until a later hour (to-
night) than had been anticipated by
those in charge of the reception being
prepared for them. It was not ex-
pected that the Tenth Regiment
would detrain in Pittsburg before
1:30 o'clock, and the soldiers face a
rather trying program at that place.
There is to be a parade through the
downtown streets, and then a march
like to the Soldiers' Memorial, where
Governor Brumbaugh and city and
state officials were to review and
welcome them. After a luncheon is
provided, the regiment is to disband,
each company proceeding to its home
station.

Up to noon none of the railroad
officials would venture a prediction as
to what time the various companies
would get out of Pittsburg. It was
indicated that it might be late in the
afternoon before any of the compa-
nies left Pittsburg. Company D was
scheduled to travel over the Pittsburg &
Lake Erie railroad. Companies A
of Greensburg and B of Mount Pleasant
were to leave over the Pennsylvania.

Although no word has been received
during the morning hours as to the
time Company E would arrive in Con-
nellsville, or over what railroad it
would travel, plans for a big reception
had assumed definite shape. The
women in charge of the banquet were
counting upon serving it about 7
o'clock, believing that the troops
would be home by that time.

During the day hundreds of Ameri-
can flags were displayed from build-
ings about the city. The soldiers will
see a gaily decorated city when they
march through the street on their way
to the armory. Thousands of small
flags distributed on Flag Day will be
brought forth again for those in
charge of the homecoming celebra-
tion urge everyone to wear or carry
flags or some other representation of
the national colors. Automobiles and
all other vehicles will bear the em-
blems in some form and all organiza-
tions that turn out will bear the col-
ors.

There will be at least three bands
out to greet the troops as they arrive
at the station. The South Connellsville
band has offered its services and
the Pettitville Italian band of 20 pieces
has also given assurance that it will
be on hand. The Leisenring band is
expected. This organization helped
give the boys a sendoff and will like-
wise participate in the homecoming re-
ception.

At the head of the parade will
march Herman Welker, carrying the
big flag that is the prized possession
of the Spanish-American War veter-
ans. With him will be other veterans
of foreign wars. The survivors of the
giant band that fought during the
Civil War will be on hand, too. No
city patriotic citizen may get a flag and
fall in line.

Some way of notifying the various
organizations when to meet so as to
be ready when the train arrives will
be devised during the day. They are
to be at the West Side fire station, but
at what hour depends upon when the
soldiers leave Pittsburg.

The women in charge of the ban-
quet to be served the soldiers this eve-
ning at the armory immediately after
their arrival met last evening. Com-
mittees were appointed and further
plans for the celebration made. The
soliciting committee met with excel-
lent success yesterday afternoon, per-
sons who were approached responding
generously. About \$35 in cash, dona-
tions of pickles, butter, meat, loaf
and other edibles were received. Fol-
lowing the supper, Colonel J. J. Bar-
nart, a veteran of the Civil War, will
be called upon to make the principal
address of the evening.

Committees were appointed as fol-
lows: Table No. 1, Mrs. H. L. Robin-
son of Uniontown; aides, Miss Edith
Morton, Miss Elizabeth Anderson, Miss
Sarah Gallagher and Miss Viola
Moore.

Table No. 2, Mrs. William Rogers;
aides, Mrs. Davis, Miss Anna Rea
Thompson, Miss Ada Mae Hannum,
Miss Geraldine Buttermore and Miss
Margaret Carson.

Table No. 3, Mrs. R. S. McKee and
Mrs. L. P. McCormick; aides, Mrs.
Lillian McCormick, Miss Edith McKee,
Miss Emma Kate Crowley, Mrs. H. L.
Schuck, Mrs. O. R. Herwick, Miss

Margaret Morton and Mrs. Rena Mil-
ler.

Table No. 4, Mrs. James S. Darr;
aides, Mrs. T. E. Miller, Miss Anna
Jean Randolph, Mrs. Ivador Darr, Mrs.
Blanche Thompson and Miss Cooper.
Kitchen committee, Mrs. S. M.
Sheetz, Mrs. T. R. Cunningham, Mrs.
J. W. Buttermore, Mrs. J. C. Herwick,
Mrs. John Stillwagon, Mrs. J. B.
Stedman, Mrs. F. P. Moore, Mrs. Mar-
tin, Mrs. David Randolph, Mrs. E. W.
Horne, Mrs. Cooper, Mrs. Frank
Meekes, Mrs. Kauffman and Miss
Clara Pritchard.

Mrs. A. B. Morton, mother of Cap-
tain Robert Morton, and Mrs. D. K.
Dillworth, mother of Second Lieuten-
ant Montgomery Dillworth, are at the
head of the affair. The armory is at-
tractively decorated with flags and
bunting.

Arrangements were made to sound
the big whistle when Company D ap-
proaches Connellsville. Efforts will
be made to sound the signal when the
train is within 15 to 20 miles of town.
Because of the confusion as to the
routing of the company the committee
arranged to sound one blast of the
whistle if the boys come in over the
Pittsburg & Lake Erie; two blasts if
they travel over the Pennsylvania and
three blasts for the Baltimore & Ohio.

ACCUSED OF FIGHTING

Two Are Taken From Train Carrying
Workmen Into West Virginia.

Dave Corkrey of Jersey City, and
Charles W. Smith of Minneapolis, were
arrested at the Baltimore & Ohio sta-
tion here last night at 7:10 o'clock by
M. F. Withers, railroad officer. They
were charged with having been fight-
ing in a workmen's coach attached to
train No. 4. Captain E. F. Ludwig of
the Baltimore & Ohio police, will
make information against the men be-
fore Alderman Fred Munk.

The work coach was filled with men
being transported from Pittsburg to
West Virginia points, where they were
to work on a pipe line. A telegram
was received here shortly before No. 4
came in, instructing the police to take
two men, who had been fighting, from
the train. Smith had been bawling out
the men, and medical attention was necessary
for him.

Both men deny the charges. Corkrey
prefers absolute ignorance concern-
ing any fighting. Smith says that he
was asleep when some one struck him
several times and knocked him uncon-
scious.

who, they allege, was driving fast and
recklessly. Mrs. Piccolomini is said
to have been injured about the face,
arms and body, and her husband sus-
tained severe injuries. Their automob-
ile was wrecked, they say.

KICKED BY A HORSE

Wheeler Man is Painfully Hurt on
Main Street.

William H. Fogle of Wheeler, 55
years old, is in the Cottage State hos-
pital for treatment of a slight con-
cussion of the brain and a cut above
the left eye, suffered this afternoon
when he was kicked and knocked
down by a horse owned by the Young
Ice & Storage Company, the accident
occurring near Flanagan's meat market
on West Main street.

The horse, in kicking, threw one of
its legs over the tongue of the wagon.
After the animal had been unharnessed
it took fright and started to run
away, kicking Fogle. His injuries
are not serious. The injured man's
son, H. A. Fogle, was driving the team.

STANDS FOR AMERICAN RIGHTS

"No Understandings; No Intrigues,"
He Declares at Clarksburg; Main-
tenance of Dignity of American Citi-
zenship Crying Need of the Hour.

By Associated Press.

CLARKSBURG, W. Va., Oct. 11.—
Charles E. Hughes told an audience
which gathered at the station here
today that in his stand for the protec-
tion of American lives, property and
commerce he had "no agreement" with
anybody.

"I stand for American rights
throughout the world without fear or
favor," he said. "I have no under-
standing, no agreement, no intrigue
with anybody, but I stand for the
interests of the United States and
the protection of American lives,
American property and American com-
merce throughout the world."

"Our friends on the other side like
about their policy particularly in
Mexico as though it were a policy of
peace," Mr. Hughes continued. "It
has not been a policy of peace. It
has been a policy of destruction of
the lives and property of American
citizens because of the withdrawal of
protection that should have been ac-
cording."

"There is only one way for this
country to have permanent peace and
that is to stand firmly for your honor
and your just rights. I stand here to
say that nothing at this time is more
important than to maintain the dig-
nity of American citizenship and to
show to all that we propose to main-
tain our peace and security by firmly
demanding recognition of all our
known rights."

"We propose to protect American
rights. We propose to safeguard
American peace. We propose to main-
tain the national honor."

Mr. Hughes spoke for the protec-
tive tariff declaring that in his ap-
plication he would not "aid any particu-
lar sort of American citizen at the ex-
pense of the others."

"If you want a protective tariff," he
said, "you have got to put in power
a Congress, Senate and House whose
majority believes in the principle of
the protective tariff. I want to see
the success of the Republican ticket
in the House and Senate in order that
we may place American prosperity on
a sound foundation."

The nominee assailed the adminis-
tration again for the enactment of the
Adams law.

"I am not opposed to the principle
of an eight-hour workday," he said.
"I favor principle. What I am
opposed to is government by hold-
up. What I am opposed to is having
the government allocate its power
official and moral, in the presence of
the demand of force instead of know-
ing what is right and then doing it."

Mr. Hughes assailed the adminis-
tration for extravagance, asserting that
the Democratic party four years ago
had arraigned the Republicans for ex-
travagance and "then proceeded to
break the record for extravagance."

Mr. Hughes' visit here was his first
in the state. He left shortly after 10
o'clock for Parkersburg.

HUGHES IN WEST VIRGINIA

CLARKSBURG, W. Va., Oct. 11.—
Charles E. Hughes spent today cam-
paigning in West Virginia. It was his

in the forenoon, at Parkersburg and
Huntington in the afternoon, and at

Mr. Hughes spent an hour in Clark-
sburg. He spoke from a stand near the
station. At Parkersburg, where he
was due to arrive at 1 P. M., the com-
mittee was to speak from the court-
house steps. The next stop, Huntington,
will be reached at 5:45 P. M., and
at 11 P. M. after his night speech,
Mr. Hughes will leave Charleston for
a day's trip through Kentucky, closing

EDITOR RUNS DOWN NEWS ITEM IN TAXI

Machine in Which He is Riding
Figures in the Capture of
Negro Fugitive.

The reporter who happens by just
when a news story breaks deems him-
self fortunate, but Editor H. F. Snyder
of The Courier went his staff one
better this morning when he figured
in the pursuit and capture of a negro
who was endeavoring to elude Chief of
Police B. Rottler. As the negro
darted across Apple street, the taxi,
in which Mr. Snyder was riding,
driven by Alva Moon, struck him. His
coat caught in the fender and he was
dragged several feet. By the time he
could pick himself up, Chief Rottler
had him.

Just as the negro stumbled an old
spoon fell from his pocket and clat-
tered across the street. The taxi pro-
ceeded on its way quite uninjured.

The negro, who had accumulated
something that closely resembled a
bag, was brandishing a big revolver on
the sidewalk where the chief spotted
him. He saw the chief and bolted,
with the result aforementioned.

SECOND GIRL VICTIM DEAD

Helen Keneer, One of Six Struck by
Auto, Succumbs at Mount
Pleasant.

The death of Helen Keneer, 13
years old, in the Mount Pleasant hos-
pital early this morning, makes the
toll of death two in the automobile
accident near the Fairview school,
in Mount Pleasant township, when
the machine driven by W. H.
Brown, crashed into a group of six
school girls on Friday. Katha Shefel
died the night of the tragedy.

The little Keneer girl was the
daughter of Mr. and Mrs. Emerson
Keneer, who live just across the road
from Brown, beyond Bridgeport. She
is survived by her parents, a sister,
Bertha, and brother, Lloyd.

The girl suffered bad cuts about the
face and head, together with internal
injuries.

Dr. M. W. Horner, deputy coroner,
will take no steps to hold an inquest
into the tragedy until it is determined
whether the other four victims will
recover. It is not expected that any
of them will die.

Award of the Appam to British Owners
Causes Germans to Decide Against
Bringing Ships to U. S. Ports; No
Trace Found of Kingstonian Crew.

By Associated Press.

BERLIN, Tuesday, October 10, by
wireless to the American Press via
Tuckerton, N. J., Oct. 11.—The Ger-
man submarine campaign off the
American coast, according to the firm
conviction in admiralty and foreign
circles, undoubtedly is being con-
ducted in full accordance with the recog-
nized rules of cruiser warfare, and
with the German understanding with
the United States not to sink ships
without warning, and without making
adequate provision for the safety of
passengers and crew.

The decision of the American court
in the case of the British Appam,
which was awarded to her British
owners after being taken into Norfolk
by a German prize crew, makes it
impracticable to send prizes into the
American ports. Submarine com-
manders, therefore, have no option ex-
cept to destroy them.

NO TRACE OF CREW

NEWPORT, R. I., Oct. 11.—The
United States destroyers which have

them reported having found any trace
of the Kingstonian's boats.

The sea was very rough and the
weather cold during yesterday and
last night.

sidered in naval circles as suggesting
a possible trace of the steamship
Kingstonian, reported torpedoed by a
German submarine on Sunday.

NEW YORK, Oct. 11.—The battleship
Nebraska left the navy yard here early
today and passed out to sea heading in
an easterly direction. A suggestion
that she was bound for the scene of the
recent German submarine activities
was met by the statement at the navy
yard that she was "out for a little
cruising exercise along the coast."

CROSS, FEVERISH CHILD IS BILIOUS OR CONSTIPATED

Look, Mother, if Tongue is Coated Give "California Syrup of Figs."

Every mother realizes after giving her children "California Syrup of Figs." that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "Fruit Laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy, they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages, and grown-ups, printed on the bottle. Beware of counterfeits sold here, so don't be fooled. Get the genuine made by "California Fig Syrup Company."—Adv.

CHESTNUT CROP OF SOUTH IS FAILURE, FORESTERS ASSERT

Mountaineers, However, Encouraged Because Must Is Plentiful.

MEANS FOOD FOR THE HOGS

Chestnuts Particularly Valuable In Some Sections, Both For Fattening Swine and as a Means of Procuring Supplies for Winter Fire Needs.

Special to The Courier.—WASHINGTON, Oct. 11.—Forest of fers who have returned to Washington from the southern mountains say that, because of the heavy rain, of the past summer, the chestnut crop in the Southern Appalachian region will be below normal, although other mast will be abundant. Continued rains during the summer, it is explained, seem to prevent the pollination of the chestnut trees and after a rainy summer the crop is seldom good. Because the pollen on the oak trees develop earlier in the season than the chestnut, the acorn crop was not affected by the later rain.

While most people do not think about the matter one way or another the mast crop is of no little importance to the southern mountaineers, say the foresters. Most of the people of the mountains have a few head of hogs which graze in the woods and which depend largely upon the nuts for their food. When there is a heavy mast these hogs keep in good condition in the fall, but when the mast fails they get so thin that they justify the term "razor-back" which is sometimes applied to them. Chestnuts are particularly valued by the hogs, and the mountaineers claim that the meat of the animals which feed on the nuts has a distinctive "sweet" flavor. In some places the hogs and hams from such animals is highly prized and brings good prices. Other nuts which the hogs find to their liking are the acorns of white and chestnut oak, beechnuts and chinquapins. In addition to this use the chestnuts are gathered by the mountaineers both for their own use and for sale. When the nuts begin to fall whole families go into the woods and sometimes camp out for several days in locations where the nuts are abundant. Some of the nuts may be kept for the mountaineers' use, but gradually they are exhausted at the nearest store for supplies to take out the winter's provisions.

According to the foresters, the chestnut nutters are responsible for many forest fires. Some of them leave their camp fires unextinguished. Others, it is said, set fire to the woods to burn off the leaves and twigs on the ground in order that the nuts may be easily found. Even where the nuts are not gathered, the woods are sometimes burned to enable the hogs to find the nuts as fast as they fall.

Men who are familiar with the local conditions say that, on the lands purchased by the Government in the Southern Appalachians, the mast crop is of considerable value, but that the present methods of the mountaineers do not reap the full benefit of it, because the hogs which they own are for the most part scrub stock and are hard to fatten. If a better class of hogs were used, they say, the animals would weigh considerably more than the present variety and would furnish a better quality of meat. Mast-fed hogs are discriminated against on the market because the meat is apt to be soft and oily. For home curing the objection is not so serious. If hogs are to be marketed after having been fed on mast, it is said, a correlation should be given to harden the meat.

SOISSON THEATRE.

"BEHIND THE LINES". A five reel Diodot feature, with Harry Carey and Edith Johnson in the leading roles will be shown here today. Those who have watched Harry Carey swagger in "claps" and slouch hat through scenes of "Western" photoplays will be interested in watching him play the role of a studious and skillful army surgeon bent upon finding a panacea for human life and wounding up by falling head over heels into the most incurable of all diseases—love. "Hicks of Love," a three-reel Gold Seal selection, features Claude McDowell and William Mong. Newspaper drama with love and jealousy mixed furnishes an interesting story. "The Inspector's Double," a Joker comedy with Gale Henry. Tomorrow, the Ivan production, "Sins of the Parents."

The historical and powerful trend of Bluebird Photoplay events, will be described when the military drama "Behind the Lines" is displayed as the attraction at the Soisson Theatre today, with Harry Carey and Edith Johnson in the principal roles. The scene of action is located in fiction-titled Mexico where enters the present day martial spirit of our domestic policy.

Henry McKee, who produced the feature, took the numerous Bluebird company players to Mexican soil where authentic "locations" were secured for the photographic equipment of the inspiring scenes of military conquest and farce. Mary Rider's story has had wide circulation and its gripping tale is visualized in photography with an increased advantage to its effectiveness.

There is a strong love interest in the tribulation of an American girl who is forced by relentless circumstance to become a Mexican spy; she meets an American army surgeon and amid the agonizing scenes in a military hospital their love grows until the fateful moment when the girl is to be executed because she is a spy.

Then the whole force of the preliminary episode centers in a quick succession of thrilling incidents through which the much desired happy ending is attained.

Apart from the "heart interest" which dominates the issue, there will

be shown many stirring scenes of military encounter; sharp clashes between infantry and cavalry forces, and some of the most thrilling examples of horsemanship ever caught by the camera. In "Behind the Lines" there is an appeal to every emotion and a gripping interest for every type of "film fan" that motion pictures have created among spectators after wholesome and interesting amusement.

THE PARAMOUNT.

"GRITCHEN THE GREENHORN"—A Triangle Fine Arts production in which Dorothy Gish and the Triangle kiddies make a delightful combination, is today's feature attraction. The scenes of "Gretchen the Greenhorn" are all laid in New York, yet the story has all the atmosphere of Holland, and is typically Dutch in its characterization. The role of Gretchen fits Miss Gish perfectly, and with the remainder of the cast excellently selected, the picture is easily one of the best acted photo-dramas ever presented.

Miss Gish as the little Dutch girl who comes to America and almost singlehandedly finds herself involved in all sorts of adventures, does the finest work of her career. As the little mother of the Garriky kids, played so excellently as is always the tale of the Triangle kiddies, she is most appealing and as the brave-hearted miss who thwarts the band of counterfeiterers she is downright inspiring.

The scenes from Holland are gems of realism, not a detail of the picturesque of that country being lost on the screen. The picture does not lack for action. From the moment Gretchen arrives in America until she is finally rescued from a boat where she has been carried captive by a band of counterfeiterers there is action every moment of the picture. Those Triangle youngsters have a way of starting things from time to time, that inspires plenty of excitement in every picture in which they appear.

A "Triangle comedy," "Lovers Night," presenting Fred Vance, is featured in the program. Tomorrow, "William Russell" will be seen in "The Man Who Would Not Die." Friday, Hazel Dawa and Owen Moore will appear in "Under Cover."

The Idle Reporter

Ralph M. Cuthbertson, manager of the L. Dunn Store, recently ordered a number of rubber shoes for the Elks clubhouse. To secure them it was necessary for him to sign an agreement to the effect that the rubber would not be exported to Germany. This unusual condition is said to be because England has a monopoly on the rubber trade and none is exported to this country unless the manufacturers are satisfied that it will eventually find its way to Germany. Other dealers in rubber goods have had to sign similar agreements recently.

There is efficiency in everything nowadays. Even the preachers are preaching it. This does not account, however, for the sermons which Rev. Wilbur Nelson and Rev. J. L. Proud delivered on "Conscience" Sunday a week ago. They both took this theme for their evening discourse, and each of them made it. Other clergymen of the city had a good deal of good-natured fun with the two pastors over the coincidence. "Well, whatever you say about it, you have to admit it was a good subject," was Rev. Proud's comment.

In the old days when you went out "buggy-riding" when you heard the sound of a whip you could take out your trusty little whip and with one or two graceful wishes chase a dozen boys off the rear of your vehicle. The horse had sense enough to keep on going and follow the road. Not so with an automobile. You don't have any whip and if you had one, there is no assurance that the car would not take to the ditch the minute you took both hands off the steering wheel. One ingenious automobilist, however, has designed what he calls a "stinger." It utilizes an old coil and grounding it at one point on his machine connects it with his electric apparatus in such a way that when a switch is thrown in the rear of the machine is charged and the boys who climb on get enough of a shock to cure them of the practice. At some places in the country, many of the roadster boys are often loaded with boys who climb on every abutting part of the car. The driver is helpless unless he stops and gets out. By that time the boys are far away.

When the schools opened on October 2, there was something lacking. Residents of the Fourth Ward were perhaps not the only ones to miss it, either. It was the familiar clang of the Fourth Ward bell. For many years it had rung out after a sum-

mer's silence notifying the children of the vicinity that school had "taken up" again. And thereafter, the old bell pealed out the beginning of school sessions daily. It never missed. When the historic building was condemned last year by state inspectors, school was discontinued there and the bell has not tolled since. The pathetic part of it is that the bell is not likely to ring again. At least it will never ring out again as the "Fourth Ward bell." If it is used at some other building, its identity will be lost. It will just be a school bell, and it is more than that to many people. There is no way of telling when the bell was installed. The "Union school" was opened on June 11, 1890, and renovated in 1873. In November 1895 the removal of the building to its present location on the lot originally donated by Zachariah Connel was completed. Historical records do not say whether the bell was installed when the structure was first opened or afterward.

Do You Want Anything?

It so, try our classified columns. One cent a word.

After Nov. 30, it will cost you just \$70 more to buy a 7-22 Chalmers. But the price on the 5-passenger 3400 r. p. m. Chalmers remains (for the time being) \$1090 Detroit

Until midnight of Nov. 30 you can get a 7-22 Chalmers for \$1280 Detroit—a car of rare ability, fascinating in body equipment, and, like a beautiful woman, of exquisite charm.

After that date the price becomes \$1350 Detroit—\$70 more. The \$70 is just a few dollars less than the increase in cost of manufacture of this car since its appearance in June.

To those who have longed for the 5-passenger 3400 r. p. m. Chalmers—and have not yet possessed one, just a word of warning: the price remains unchanged just now—\$1090 Detroit; we do not know how long this low price will continue. We reserve the right to increase the price without notice.

Only those who are buying materials such as go into high-grade automobiles can begin to realize the steady, upward trend of the materials market.

Just one condition today prevents a rise in price of the 5-passenger 3400 r. p. m. Chalmers—the fact that these cars are being made on a factory "work order" dating back several months.

Since the "work order" went through materials have jumped in cost again. When the current "work order" is completed and if materials remain at their present level or rise higher, only one course will be possible, an increased price.

Those who have been driving Chalmers cars know how diligent has been the Chalmers effort to set down cars of the quality kind.

They will understand how impossible it would be for Chalmers to dodge the increase-in-materials issue and maintain the prevailing price on the 7-22 Chalmers.

Lower the quality of the Chalmers? Never. The Chalmers men take great pride, not only in the money the car makes for them, but in the car itself. And pride, as everyone knows, is a thing that can never be compromised.

It would be like Tissot trying to paint a picture to fit a price.

As long as there's a name "Chalmers", there will be a quality car, and as long as there's a quality car there'll be a price fixed—not by the Sales Department—but by cost accountants.

And there'll be a fair deal. Chalmers says these two 3400 r. p. m. models will be continued into next season. You can bank on that. So that a Chalmers car you might buy now will be exactly like the one you would buy next spring.

Remember the \$70 you can save now by anticipating the rise in price. There's an old Scotch proverb that says "A dollar saved is a dollar earned." \$70 buys a good suit of clothes, a good pair of shoes, a good hat and some good gloves. Also it just about pays your dues at the club for a year.

Or, if it's a 5-passenger 3400 r. p. m. Chalmers you want, our advice is to get one now.

We are not sure the price is going up and we are not sure that it isn't.

STATE ISSUES NOT TAKEN UP

Republican State Committee Holds Harmonious Session in Philadelphia; Candidates There.

Special to The Courier.

PHILADELPHIA, Oct. 11.—Tariff, preparedness and true Americanism were yesterday recognized by the Republican State Committee as the paramount issues of the campaign. In the building of the platform all state questions were eliminated. Attempts to have local opinion and woman suffrage plank inserted were blocked by the committee.

The committee met on the roof garden of the Bellevue-Stratford Hotel, with more than 100 of the 119 members present. Every action was unanimous.

Those leaders of the Republican party in their communities expressed confidence in an overwhelming majority for Hughes and Fairbanks. Chairman W. B. Crow presided. The principal business was the adoption of the shortest platform on record, some changes in the state rules and the delivery of brief speeches by United States Senator Boies Penrose and George T. Oliver, P. C. Knox, nominee for United States senator; Charles A. Snyder, nominee for auditor general; H. M. Kephart, candidate for state treasurer; Mallon M. Garland and Joseph McLaughlin, nominees for Congressmen-at-large; William I. Shafer of Delaware and Congressman I. T. McPadden of the Fourteenth District.

BROOKLYN TAKES THIRD GAME OF THE BIG SERIES

Once on the Home Grounds
the Superbas Prove to
be Invincible.

RED SOX UNABLE TO STOP THEM

Robins Take Lead in Early Innings
and Rally of American League
Falls One Run Short; Daubert
and Olson are Batting Stars of the Day.

NEW YORK, Oct. 10.—Flinty entrenched within their own grounds, the Brooklyn Nationals yesterday wrested victory from the Red Sox by a score of 4-3 in the third game of the world's series.

True to their predictions, the Superbas, playing at Ebbets' Field, proved far more formidable than when under the spell of Boston's cold disdain. Twice deprived of victories after thrilling battles at Braves Field, they finally arose in their might and with the plaudits of the home fans ringing in their ears, they battled out a victory with savage vigor, swinging their blue jenns with such effectiveness that neither the pitching staff nor the stogewall defense of the Red Sox could hold them in check. Hits rained off their bats with the snap and deadliness of exploding shrapnel and while the invaders made a determined resistance they were forced to bow to the superior playing of the winners.

As a result of Brooklyn's triumph their supporters' joy and hopes reached great heights and their victory was followed by one of the most extraordinary celebrations ever seen in a world's series battlefield. Hardly had Stengel clutched Lewis' towering fly for the final out of the game than thousands of rosters came trooping on the diamond and outfields where they appeared to be carried away by the enthusiasm of conquest.

The demonstration made up in part for the lack of the thrilling features which marked the first two contests of the series. There was missing in the third game the tenacious and sensational individual plays which dominated the preceding clashes at Braves Field.

Brooklyn jumped into the lead early in yesterday's contest and was never headed, although the Boston club crept up to within a run of the score in the closing innings. Neither was the game marked by super-excellent baseball. The game was played in cool, crisp weather.

"Jack" Combs, already a veteran of two world's series with the Philadelphia Athletics, came in for unstinted praise, both for his splendid twirling in the early innings of the game and later for his self abnegation in requesting to be relieved when he felt himself slipping and realized that to remain in the box might mean defeat for his teammates.

Until the seventh inning Combs held the Red Sox to six hits and two runs but when Larry Gardner lifted the ball over the right field wall for a home run, Combs realized that he was losing his cunning. His teammates urged him to remain in the game but Combs was firm in his determination and was finally replaced by Pfeffer who held the one run lead Combs had given him until the end, Boston being helpless and listless before his delivery.

Carl Mays, the underhanded twirler selected by Manager Carrigan to hold the Superbas in check, was less fortunate, for the Robinson clan fell upon his offerings with a freedom that they had not displayed against either Shore or Ruth. They garnered seven hits and four runs before Hendrickson went to bat for him in the sixth and Foster replaced him on the mound when the team took the field again. Foster was reached for three hits but Brooklyn was unable to turn them into runs. All told, Brooklyn got 10 hits for a total of 11 bases, while Boston rolled up an aggregate of 12 bases with seven hits. The score:

YOU'LL O. K. THIS CHEW AT FIRST TRIAL

Wonderful Flavor of "American Navy" Has Never Been Equaled

PUTS MORE JOY INTO CHEWING

There's a wealth of wholesome comfort and satisfaction in a chew of good plug tobacco. It promotes digestion and coaxes the whole system into a state of restful activity. Plug tobacco is the most natural form into which the rich leaf can be made.

One chew of American Navy plug is enough to get your O. K. Such rich, savory flavor you never tasted before—such sweet, juicy enjoyment you never found in any other chew.

In "scrap" you get only part of the leaf—part of its richness—part of its sweet, mellow flavor.

But American Navy plug is made of the whole leaf, pressed close so that all its richness and sweetness is evenly distributed through every chew.

American Navy is made of choice tobacco leaf selected with painstaking care for full juicy richness.

And the factory in which this leaf is pressed into savory plugs is sweet and clean and sanitary.

Big, luscious cuts for 5c and 10c.

Facts Versus Fallacies

FACT is a real state of things. FALLACY is an apparently genuine but really illogical statement or argument.

FEW persons appreciate the enormous economic factor the saloon is in the vital life of the nation. The saloon is the business end of one of the big industries of the United States. It is the medium through which the products of the great brewing and distilling plants are distributed. The liquor industry ranks fifth in the great industries of this country.

THERE are over a million men engaged in the task of supplying the demand for alcoholic beverages. Included in this list are 60,000 carpenters, 35,000 truckmen, 43,000 stenographers, 30,000 glass workers, 33,000 traveling men, 27,500 painters, 25,000 office and errand boys, 19,000 printers and lithographers. Corkmakers, coopers, engineers, waiters, musicians, farmers, brewers, distillers, saloonkeepers and bartenders raise the total to more than a million men who are directly interested in the liquor business. All of these men depend upon the saloons for a living. They receive in wages about \$800,000,000 a year. This money is spent with tradesmen in other lines and goes to support all of the other enterprises in the United States.

IF THESE people were suddenly separated from their income by prohibition it would create industrial chaos. It would jeopardize every union in the land, for the wage earners would not be content to see their loved ones starve, and, if they could not get jobs at union wages they would cut the price and stampede the labor market.

CAPITAL invested in the liquor business is estimated from \$3,000,000,000 to \$4,000,000,000; but much more money than that is directly interested in the prosperity of the liquor industry. Farmers alone receive \$200,000,000 annually for their products that are used in making liquor. The retail liquor trade pays an equal amount each year for rent, and this does not include hotels and restaurants. The railroads receive millions each year for their services. According to the United States Statistical Abstract for 1913, the total movement of manufacturers of the wine, whiskey and beer industry in 1913 amounted to over 7,000,000 tons or 32 per cent of the total traffic of all the manufacturing industries of the country.

THE Government is in partnership with the liquor men. The annual internal revenue is \$230,000,000. The custom revenue is \$18,000,000, making a total of \$250,000,000 received by Uncle Sam as his share of the profits of this great industry. This is over one-third of the total annual income from all sources. Incorporated places having a population of \$500 or over receive in license money \$31,000,000. The State and country receive other millions, making a grand total of hundreds of millions every year that are contributed to local self government by the saloons.

THAT it is a FALLACY to say that the saloon has no place as an economic factor in this country is proven by the FACTS that over one million persons directly and indirectly owe their subsistence to the saloon—that the liquor industry is fifth among the nation's industries—and that the liquor interests pay over one-third of all the income derived by the United States Government!

A Sale of Cedar Chests

\$12.95 Friday and Saturday Only \$12.95

"WHY doesn't some store have a sale of CEDAR CHESTS?" asked a lady of one of our department managers just the other day. It seemed a mighty good idea, as such sales are decidedly uncommon, and this seemed a most opportune time for besides the Chests, which are needed right now for personal use, there will be many more needed for gifts a little later on, but which could just as well be purchased now. The price, \$12.95, is so special that we can afford to offer it for only these two days.

As to the Chests

—They are of genuine Tennessee red cedar, 42 in. long, 19 in. high, and 17½ in. wide. Trunk-style tops with round corners. Highly polished. Fitted with handles, castors, lock and key. As our supply of these is limited to ten, we seriously advise that you select yours fairly early. Friday. Will be on sale in second floor annex.

Busy Days Among the Wool Dress Fabrics

—Just now fashions are very full, all the most popular weaves—serges, poplins, gabardines, cashmere, granite cloths and crepe poplins. Sometimes there are as many as ten shades in one quality alone. Prices are from 60c to \$2 a yard.

—But all of these wool materials are becoming scarcer and some can't be renewed at all.

Wonderful Assemblage of the Newest Silks

Commanding attention and admiration by reason of their beautiful richness are:—

- Beautiful Stripes and Plaids, 36 in. wide, \$1.75 to \$2.50 a yard.
- Copen, Navy and Gold Stripes, \$2 a yard.
- Navy and Green Plaids, \$2.00 a yard.
- Dark Red and Green Stripes, \$2.00 a yard.
- Copen and Red Stripes, \$1.75 a yard.
- Bright Red and Green Plaids, \$1.40 a yard.
- Navy Blue and Green Stripes, \$1.65 a yard.
- African Brown and Gold Plaids, \$2.50 a yard.

A Hint

—Be sure to read the Wright-Metzler Company Advertisement on this page Friday and Saturday, as it will contain a group of Specials from the Dress Goods Department for Saturday and Sunday only, which will be very attractive to say the least.

The New Fall Linings

—Are now being shown. These are beautiful figured cotton back satins with both light and dark back grounds, 35 inches wide, to retail for \$1.00 a yard. Including the following combinations: White background with pink and blue floral designs; copen background with pink floral designs; myrtle green background with pink floral designs.

NEW TRIMMINGS IN ABUNDANCE

This is, indeed, an opportunity for mothers who have little Lads to clothe, for these Suits are good looking, serviceable, well-styled—and there isn't a single one of them which isn't priced far below its actual value. Men's Clothing Section.

All Women Interested in Serge Dresses

And that includes practically every woman at all interested in style—so great is the present vogue for these Dresses—will find here a variety of styles and colors to please even the hardest-to-please.

All serge, of course, but also pretty combinations of serge-and-satin, serge-and-georgette, serge-and-crepe, and serge-and-taffeta, trimmed with wool embroidery, hand or beads. All sizes. Prices range from \$6.75 very gradually to \$15.

If Actual Facts Did Not Prove Our Statements

We would be very hesitant about declaring that for variety and number of styles, our displays of ladies' outer apparel is far and away superior to any other shown in this city. This makes selection easy, and where selection is easy is a most pleasant place to buy. You'll like our—
